Baden-Baden  
is our home.

**Baden-Baden is our home – the place where we live, work and shape the future.**

Walking through the alleyways here, one immediately senses the town's special tranquillity. Yet, behind this calm lies power. At first glance, Baden-Baden may seem like a quiet spot on the map, far removed from the clamour of big cities. But it is precisely this distance that creates space for clear thinking. This is where things emerge that easily get lost in the hustle and bustle elsewhere: genuine ideas, bold approaches

and intelligent design. We firmly believe that greatness does not depend on skyscrapers. It grows where people move through their world with open eyes. The rolling hills, the time-honoured buildings and the proximity to nature sharpen our focus on the essentials. Baden-Baden shows us every day that being in the provinces is not a disadvantage, but a gift. It gives us freedom, composure and the courage to tread new paths. Thus, a place that many consider sleepy becomes a fertile ground for ideas that resonate far beyond the town.

We will cover the costs of CO2 neutralization in shipping.

Errors and printing errors excepted.

We make every effort to ensure that the prices printed in this catalogue will last for a year as it used to be. But facing increasing freight rates and raw material prices we feel unable to bear all the cost; it must be taken into account in the pricing. In such a case, we reserve the right to increase the prices within the runtime of a catalogue to be individually adapted. The relevant price is the price which you'll find on our website [www.nestler-matho.de](http://www.nestler-matho.de).
